# SPACE FLUTES

## Easy To Play

With the Space Flute, beginners can start playing right away and professionals will be impressed with the natural but impeccable accuracy of the tone produced by the overtone flutes from HERTZ+KLANG.

This flute has only one grip hole. The player creates different tones by simply varying the strength of their breath. The series of tones created by the player are natural overtones. The Space Flute are also ideal for group improvisations. Every tone of the overtone series always sound great together, so there are no bad notes!

The Space Flute is held and played while in a lateral position, but it is not a transverse flute, it is more like a wooden flute. Because it's so easy to get perfect tones, the Space Flute can be played without any practice. Playing the flute as a virtuoso is as easy as breath control and movement of the fingers gripping the flute.

## Innovative Design

Professionals appreciate the brilliant tone of the Space Flute. Through their fine development in design, HERTZ+KLANG offer a purity in the overtone series which has never been so perfectly achieved. The mouthpiece is made of wood and the sound tube is made of polished brass.

## Cosmically Tuned

The principal of the cosmic octave - which is based on astronomical data - is the basis for the varying basic tones of the Space Flute (see page 2)

## Single Flutes or Interchangeable Set

Choose from either a single flute or an interchangeable set with removable tubes.

If you want more than two main tones, then the price is cheaper with an interchangeable set. A single flute is not interchangeable due to the fixed mouthtubes.

Space Flute - Interchangeable Set

## SPACE FLUTE - INTERCHANGEABLE SET

The interchangeable set contains a mouthtube which can be assembled with one of nine endpieces. With the nine endpieces you can adjust 20 different cosmic tunings (see page 2). On each endpiece up to 3 playable tones are indicated with letters and each is marked with a line to indicate the depth of insertion into the mouthtube.

## SPACE FLUTES - SINGLE FLUTES

Individual flutes are available for each of the different cosmic tunings of the earth, the moon, the planets and the sun (see page 2).

Space Flute - Single Flute

# ORDER- AND PRICE LIST for **SPACE FLUTES** (valid since April 1<sup>st</sup>, 2005)
